§ 1030.53 Announcement of class and component prices.

On or before the 5th day of the month, the market administrator shall announce the following prices:

(a) The Class I price for the following month;

(b) The Class II price for the following month;

(c) The Class III price for the preceding month;

(d) The Class III–A price for the preceding month;

(e) The skim milk price for the preceding month;

(f) The butterfat price for the preceding month;

(g) The protein price for the preceding month;

(h) The other solids price for the preceding month;

(i) The somatic cell adjustment rate for the preceding month; and

(j) The butterfat differential for the preceding month.

[60 FR 57150, Nov. 14, 1995]

§ 1030.54 Equivalent price.

If for any reason a price quotation or other pricing factor required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price quotation or price factor determined by the Secretary to be equivalent to that required.

§ 1030.55 Transfer credits on Class I milk.

(a) For each handler who operates a pool distributing plant (or plants) a transportation credit on milk received from each other pool plant shall be computed by the market administrator as follows, except that paragraph (a)(2) of this section shall not apply when the Class I milk price adjusted for location pursuant to § 1030.52(a) is higher at the transferor plant than at the transferee plant:

(1) Multiply the number of hundredweights of the quantities of milk subject to the computations pursuant to § 1030.52(c) (9) and (10) times the product of 0.28 cents times the number of miles between the transferor plant and the transferee plant; and

(2) Subtract an amount computed by multiplying the absolute value difference between the location adjustment rates specified in § 1030.52(a) applicable at the transferee and transferor plants times the hundredweights of milk used in the computation in paragraph (a)(1) of this section. If the amount computed pursuant to this paragraph is greater than the amount computed in paragraph (a)(1) of this section the transportation credit will be zero.

(b) For each handler who transfers milk from a pool plant to a pool distributing plant (or plants) an assembly credit shall be computed by the market administrator at the rate of 8 cents per hundredweight of such handler's transfers of milk included in the computations pursuant to § 1030.52(c)(9) and (10).

PRODUCER PRICE DIFFERENTIAL

§ 1030.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler described in § 1030.9 (a), (b), and (c), as follows:

(a) Calculate the following values:

(1) Multiply the total hundredweight of producer milk in Class I as determined pursuant to § 1030.44(c) by the Class I differential price for the month;

(2) Add an amount obtained by multiplying the total hundredweight of producer milk in Class II as determined pursuant to § 1030.44(c) by the Class II differential price for the month;

(3) Add an amount obtained by multiplying the hundredweight of skim milk in Class I as determined pursuant to § 1030.44(a) by the skim milk price;

(4) Add an amount obtained by multiplying the pounds of skim milk in Class II and Class III as determined pursuant to § 1030.44(a) by the average protein content of producer skim milk received by the handler, and multiplying the resulting pounds of protein by the protein price;

(5) Add an amount obtained by multiplying the pounds of skim milk in Class II and Class III as determined pursuant to § 1030.44(a) by the average
